

FUSE FITNESS

2502 El Camino Real

Prevost Construction completed a \$950,000 customized tenant improvement project for Carlsbad's new state-of-the-art fitness facility, Fuse Fitness. In just three months, Prevost Construction transformed the 16,144-square-foot space from a Good Guys retail store into a top notch workout center. All retail store interior systems were demolished and new mechanical, electrical and plumbing systems were design-built for the Fuse Fitness business model. This included infrastructure for the new cardio room, hydro massage, tanning rooms and locker rooms.

AMOUNT: \$950,000
DESCRIPTION: 16,144-SQUARE-FOOT FITNESS CENTER

"Our commitment to our customers is to provide a quality place to workout that not only includes top-of-the-line equipment but that is easy to use and enjoy. Prevost Construction did an outstanding job of not only meeting our expectations throughout the construction process but exceeding them—addressing all of our needs on time and on budget."

—Kris Peterson, manager of Fuse Fitness.
